Job Title: Carbonate Geologist
Department: Enhanced Oil Recovery Institute
<http://eori.uwyo.edu>
Institution: University of Wyoming
Laramie, Wyoming

Date Posted: Aug. 4, 2009

Application Deadline: Open Until Filled
Position Start Date: Available Immediately

Job Categories: Research Scientist/Associate

Academic Field(s): Geology - Tectonics/Structure
Geology - Sedimentology/Stratigraphy
Geology/Geosciences - General

Job Website: <http://uwadmnweb.uwyo.edu/HREmployment/showjob.asp?jobid=4970>

Apply By E-mail: JulieH@uwyo.edu

Job Description:

The Enhanced Oil Recovery Institute (EORI) at the University of Wyoming invites applications for a Senior Research Scientist to work in technical development.

Position #4970.

Carbonate rocks form the second-most productive reservoirs within the State of Wyoming and contribute to the internal architecture of the most productive eolian reservoirs state-wide. As such, the Enhanced Oil Recovery Institute at the University of Wyoming is looking to hire a Carbonate Geologist to work in a team environment with geologists and engineers, to study subsurface issues with Wyoming reservoirs, as well as carry out individual research of value to the overall mission of the Institute.

Education: M.S. and 10+ years of experience or Ph.D. and 5+ years of experience in Carbonate Reservoir Studies or an equivalent technical field.

Knowledge of: All types of carbonate depositional environments, with extensive experience of both outcrop- and subsurface-based analysis and interpretation of carbonate reservoirs and reservoir rocks.

Expected duties: Reservoir analyses based on wire-line log, core, thin-section and seismic data and outcrop-based studies, in order to gain better knowledge of internal reservoir architectures.

The candidate must have the ability to work in both a unified team environment and solo on individual research projects.

Additional skills: Experience of reservoir modeling, using industry-standard software, such as Petrel, RMS, GoCad, etc.; experience with lidar acquisition and interpretation as a tool for outcrop research; and, knowledge of clastic reservoirs systems.

Application materials required:

University of Wyoming application (<http://uwadmnweb.uwyo.edu/hr/hrformspage.asp>), resume and contact information for three work related references.

EEO/AA Policy:

The University of Wyoming is an Equal Opportunity/Affirmative Action Employer.

New employees must serve an initial probationary period.

The University of Wyoming has a policy regulating smoking.

Human Resources Department hours are Monday through Friday, 8:00 - 5:00, from Labor Day to Memorial Day and 7:30 - 4:30 through the summer.

The Job Opportunities are available on the Internet, via World Wide Web.

Individuals with a disability will be provided an alternate format, upon request.

Accommodations will be considered in compliance with ADA.

Your application will be reviewed for applicable Knowledge, Skills, and Abilities. It is important to present information on your application material that clearly demonstrates your qualifications for the position.

Applicants are responsible for completely and accurately filling out the correct application.

Supplemental information may or may not be accepted after the closing date, at the hiring department's discretion.

Former or current University of Wyoming employees with re-employment rights will be given first consideration for positions.
