hours beyond a bachelor is required.

- Candidate must have the ability to demonstrate and instruct in English.
- Candidate must have the ability to teach at the university level.

The primary role of the Laboratory Instructor - Chemistry is to:

- Supervise student work in labs and grade students' lab assignments.
- Designing and developing new experiments and demonstrations.
- Should have knowledge of lab and chemical safety.
- Regularly organizes all laboratory spaces within the department.
- Provide regular, accurate, and timely feedback to students and the school concerning academics, behavior, and attendances.
- Motivates students to actively participate in all aspects of the educational process.
- Contribute to the continued innovation and development of the program; and
- Assist in selecting equipment for lab experiments.
- Teach classes whenever assigned by the Department Chair.

Benefits and Conditions:

PMU offers an income tax free compensation package, commensurate with rank and experience, including 12 month salary, summer vacation, accommodations, annual round trip airfare to home country, medical insurance, assistance with school fees for children and end of contract benefits.

Application must include a letter of interest, curriculum vitae (include recent photo, citizenship, links to Google Scholar and LinkedIn profile) and unofficial copies of all university transcripts, statement of teaching interest, as well as the names, addresses, phone numbers and email addresses of at least three (3) professional references.

Review of applications will begin immediately and continue until the positions are filled. Only shortlisted candidates will be contacted.
