The College of Nursing at Villanova University seeks nominations and applications for a full-time faculty position with preparation in statistics or related field. The successful candidate will teach, assist and advise faculty and graduate and undergraduate students on design of research and scholarly projects using valid and reliable techniques, assist in analysis and interpretation of statistical data and participate in preparation of grant applications and publications. Be engaged in research and scholarly work in area of specialty and maintain active involvement in the College, University and professional community.

Villanova University is a Catholic institution of higher learning sponsored by the Augustinian Order. Diversity and inclusion have been and will continue to be an integral component of the university's mission. Villanova University is an AA/EEO employer who seeks candidates who understand, respect and can contribute to the University's mission and values. Further information about the College of Nursing can be found at [www.villanova.edu/nursing](http://www.villanova.edu/nursing).

### Duties and Responsibilities

Teach, advise, participate in assisting and advising faculty and students in design of research and scholarly projects, assist in analysis and interpretation of statistical data and participate in preparation of grant applications and publications. Be engaged in research and scholarly work in area of specialty, and maintain active involvement in the College, University and professional community.

### Minimum Qualifications

Masters degree in statistics or related field required. Doctoral degree in relevant area preferred. Familiarity and experience working with nursing and/or health related research. Strong verbal and written communication skills. Previous teaching experience in a college or university academic program and teaching philosophy commensurate with Villanova University's mission and values required. Evidence of scholarly productivity, and publications required.

### Preferred Qualifications

Expertise in quantitative statistics highly desired. Experience in analysis of large data sets highly desired. Doctoral degree in Statistics or related area preferred.

### Physical Requirements and/or Unusual Work Hours
