applicants at any time. This posting is for the Fall 2018, Spring 2019, and Summer 2019 semesters. The specific courses involved may vary from semester to semester and openings to teach these courses develop on a periodic basis, depending on department teaching needs.

The anticipated need may include but is not limited to:

Developing and teaching graduate level (5000 level) data science courses such as data mining, large data visualization, big data analytics, etc.

Minimum Qualifications:

PhD in Data Science or related quantitative/technical field (e.g., Computer Science, Statistics, Operations Research, Mathematics). Candidates must be effective teachers who are willing to teach online as well as traditional classes in either data analytics or data engineering courses.

The University of North Texas System is firmly committed to equal opportunity and does not permit - and takes actions to prevent - discrimination, harassment (including sexual violence), and retaliation on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity or expression, age, disability, family status, genetic information, citizenship or veteran status in its application and admission processes, educational programs and activities, facilities, and employment practices. The University of North Texas System immediately investigates and takes remedial action when appropriate.

The University of North Texas System also takes actions to prevent retaliation against individuals who oppose a discriminatory practice, file a charge, or testify, assist or participate in an investigative proceeding or hearing.
