Job Description

The Post-Baccalaureate Program at the Jacobs School of Medicine and Biomedical Sciences seeks an instructor to teach a biochemistry course for a six-week summer enrichment session. The position will provide an overview of key concepts of biochemistry at the undergraduate level for a class of 20-25 students. The enrichment course is non-credit bearing and independent of courses offered as part of the regular academic curriculum of the University. Instructor must be able to utilize and/or update course content from the established curriculum. Specific responsibilities include:

- develop and present course material in a manner that is inclusive for students from both science and non-science majors and that encourages all students' participation
- develop, administer and score pretest, class assignments, quizzes and post-test
- return students' work promptly with feedback
