Job Description

The Internet Technologies and Systems Chair headed by Prof. Dr. Christoph Meinel at the Hasso-Plattner-Institute, is seeking a PhD student to join his team of researchers working on data security and privacy.

The position is open to applicants interested in working on a PhD thesis on streaming data anonymisation.

Funding.

The PhD studentship will provide a tax-free stipend for 3 years. It also includes a budget to support publication at leading international conferences and journals, and research equipment. The Hasso-Plattner-Institute also offers excellent working and research conditions.

Eligibility.

The opening is suitable for an EU or International candidate with a Master's degree with distinction (or

equivalent university degree) in Computer Science. Candidates must have good skills in programming, linear algebra, and statistics. We also expect an eagerness to participate actively in teamwork, outstanding analytical skills, and a strong interest in current data security/privacy research.

Communication skills.

Excellent written and spoken communication skills in English. Fluency in German is desirable but not required. However, some commitment to learning German is expected.

Application requirements.

Complete applications must include:

- A research proposal that is aligned with the topic of the studentship (1-2 pages)
- Transcripts and degree certificates
- A detailed resume (CV) with contact details of 2 referees

Candidates need to meet all the prerequisites for admission to the PhD in IT Systems Engineering.

Applications will be reviewed until the position is filled. Complete applications should be submitted as a single PDF file to Dr. Anne Kayem (anne.kayem(at)hpi.de).

EEO/AA Policy

The University actively supports equality, diversity, and inclusion and encourages applications from all sections of society.
