Job Description

Lecturer - Data Science - School of Information

The School of Information at the University of California, Berkeley seeks applications for a pool of part-time, non-tenure track lecturers to teach courses in Data Science. We are seeking outstanding lecturers who can teach 15-person sections in our web-based Master's in Information and Data Science program (datascience.berkeley.edu). Screening of applicants is ongoing and will continue as needed. The number of positions varies from semester to semester, depending on the needs of the School. Positions typically start in January, May, and August, and appointments may be renewed based on need, funding, and performance.

About The I School

UC Berkeley's newest school, the School of Information (I School), was created in 1994 to address one of society's most compelling challenges: the need to organize and make sense of the abundance of

information that we can now collect, store, and share without regard for cost or distance. The way we organize, represent, govern, and make sense of this information will shape our ability to achieve public as well as private goals.

The I School educates professionals and scholars to understand the problems and possibilities of information, to develop models of information practice, and to design useful and usable information applications, services, and solutions. This requires insights from diverse fields. Our faculty includes scholars and professionals with deep expertise in information and computer science, social sciences, management, law, design, and policy, as well as related fields.

We offer professional master's degrees and an academic doctoral degree. Our on-campus master's program (MIMS) trains students for careers as information professionals and emphasizes small classes and project-based learning. We offer two web-based master's programs: MIDS is the first degree available completely online to train data science professionals, and MICS is the first and only degree to train cybersecurity professionals. Our Ph.D. program equips scholars to contribute to knowledge and to the policies that influence the organization, use, and sharing of information.

Our graduates work at an impressive variety of well-known Bay Area tech companies, nonprofits, and public sector entities. Many of our graduates take advantage of the opportunity to get in on the ground floor to create or work for start-ups.

Responsibilities

In addition to teaching responsibilities, general duties include holding office hours, grading, assigning grades, advising students, and preparing course materials.

The minimum basic qualification is one of the following (by time of application):

* A bachelor's degree (or equivalent international degree); an advanced degree or enrollment in an advanced degree program.

The additional qualifications (by start date):

* Experience teaching college-level courses

- * Deep learning
- * Social network analysis
- * Natural language processing

Salary

The full-time annual fiscal-year salary range is \$61,930 to \$162,227. The School of Information generally hires lecturers for appointment at 17% to 34% time on a semester basis.

To apply, please go to the following link:

[url=https://apptrkr.com/1540792]https://aprecruit.berkeley.edu/JPF02128

This pool will remain open until March 24, 2020 to accommodate course needs and new applicants. Appointments are made for three semesters per year: fall, spring, and summer. If you wish to remain in the pool after March 24, 2020 you will need to reapply.

Please note: The use of a lecturer pool does not guarantee that an open position exists. See the review date specified in AP Recruit to learn whether the school is currently reviewing applications for a specific position. If there is no future review date specified, your application may not be considered at this time.

Letters of reference will only be solicited for finalists. All letters will be treated as confidential per University of California policy and California state law. Please refer potential referees, including when letters are provided via a third party (i.e., dossier service or career center), to the UC Berkeley statement of confidentiality

([url=https://apptrkr.com/get_redirect.php?id=1540792&targetURL=http://apo.berkeley.edu/evalltr.html]http://apo.berkeley.edu/evalltr.html) prior to submitting their letters.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status. For the complete University of California nondiscrimination and affirmative action policy see:
