students, staff, and faculty enhances our mission in providing exceptional education, advancing nanoscience discovery and research, and fostering innovation to help tackle the most vexing challenges in nanoscience especially as is relevant to the economic growth of nano-enabled industry in the state and nation.

Qualifications & Experience (Required):

- Candidates must possess a research-based terminal degree (PhD in a background in mechanical engineering, chemical engineering, material sciences or related field are encouraged) a distinguished and active record of sponsored research; a history of excellent peer-reviewed scholarship;
- Demonstrated expertise and commitment to graduate teaching; and a strong track record of leadership, mentoring/sponsorship and personnel management, especially as it relates to oversight of multi-disciplinary and interdisciplinary research.
- Successful applicants are expected to develop a strong internally and externally funded, globally recognized research programs. They should also possess a passion for and be committed to excellence in both graduate and undergraduate education in a highly interdisciplinary, collaborative, diverse, innovative, and entrepreneurial culture at PMU.

Duties and Responsibilities:

- Conduct convergent, team-oriented, high impact research, with a substantial portfolio of competitive and center-scale research funds from internal and external sponsors.
- Lead strategic planning and analysis for complex functions or programs with significant business, regulatory and/or technical challenges requiring subject matter expertise.
- May provide development of program or function from initial concept to implementation.
- Manage the administration and evaluation of programs or functions.
- Oversee the interpretation, implementation and compliance with policies and regulations.
- Recommend actions and/or resolve complex issues that often span organizational boundaries.
- Represent the program or function at the university level and/or to external/internal stakeholders and constituencies.
- Develop and manage outreach strategy that includes relationship development, communications, and compliance.
- Oversee or supervise staff in the development and implementation of programs or functions.
- May develop and/or oversee budgets; manage finances including monitoring, analyzing, forecasting, and reporting.
- Planning and leading small-group mentoring session with faculty and senior researchers.
- Guiding participants in educational initiatives centered around individual development, wellness and community engagement.
- Lead multidisciplinary project teams.
