Institute for the Theory of Computing. Rank will be determined based on qualifications and experience. The appointee will also hold the title of Senior Scientist in the Simons Institute and will play an active leadership role in the conception and realization of Institute programs. The candidate's designated home department is open but should be in a field closely related to the theory of computing. The expected start date for this position is July 1, 2020.

The Simons Institute for the Theory of Computing is an exciting venue for collaborative research in theoretical computer science. Established in 2012 by a grant from the Simons Foundation, the Institute's goal is to bring together the world's leading researchers in theoretical computer science and related fields, as well as the next generation of outstanding young scholars to explore deep unsolved problems about the nature and limits of computation.

The minimum qualification required to be considered an applicant for the position is a Ph.D. (or equivalent international degree) at the time of application. The appointee should have an exceptionally broad vision of computer science and its relationship to other scientific disciplines, as well as a history of distinguished intellectual leadership and highly significant research achievements in theoretical computer science and related areas, an established record of excellent and innovative teaching, strong mentoring of Ph.D. students and postdoctoral researchers, and formulated programs involving domestic and international participants in a significant collaboration.

Diversity, equity, and inclusion are core values in the Institute and the College of Engineering. Our excellence can only be fully realized by faculty, students, and staff who share our commitment to these values. Successful candidates for our faculty positions will demonstrate evidence of a commitment to equity and inclusion. Financial and in-kind resources are available to pursue activities that help accelerate our efforts to achieve our equity and inclusion goals, with the full backing of the College. Examples of ongoing programming at the College are available at: [engineering.berkeley.edu/diversity](http://engineering.berkeley.edu/diversity). Support for faculty candidates on writing effective statements that demonstrate commitment to diversity, equity, and inclusion, can be found at:
