Downloaded On: Jul. 7, 2020 8:59pm

Posted Mar. 12, 2020, set to expire Jul. 12, 2020

The preparation and delivery of lectures, tutorials, practical classes, demonstrations, workshops, and clinical sessions
Initiation and development of course materials
Course coordination including offering guidance to assistant lecturers and supervision of sessional staff in teaching unit/s if required
Consultation with students and supervision of PhD, honors and postgraduate students
Preparation and assessment of student assignments and examinations
Conduct of original research that will lead to publications in refereed journals or with high level academic or commercial publishers and attract external and government funding
Significant role in research project including, where appropriate, leadership of a research team
Significant contribution to the profession and/or discipline both nationally and internationally

Education/Qualifications

The appointee will have:

a doctoral qualification and/or recognized significant experience in the relevant discipline area
In determining experience relative to qualifications, regard shall be had to teaching experience, experience in research, experience outside tertiary education, creative achievement, professional contributions and/or contributions to technical achievement. In addition, a position at this level will normally require a record of demonstrable scholarly and professional achievement in the relevant discipline area.

Knowledge and Skills

Ability to teach basic to advanced levels of business analytics topics such as data visualization, data mining and statistical learning among others, with expertise in software such as R and Python.
Has background in machine learning, artificial intelligence, statistics, econometric, operations research, or any other similar discipline involving the analysis of big data.
Possess vast experience with data analysis problems arising in business (e.g., having worked full-time as a data analyst/scientist, statistical consultant, or having a high ranking as a Kaggle competitor).
A strong publication record in high-quality journals or equivalent and outstanding contribution to the discipline
Successful track record in obtaining external research grants
Record of successful supervision of postgraduate research students and the ability to make a significant contribution to postgraduate training programs
Demonstrated excellence in teaching in the relevant discipline area (i.e. through evaluations, innovation in presentation and through curriculum development)
Demonstrated ability to mentor staff and students
High level of interpersonal skills and a proven ability to establish good working relationships with colleagues, students and members of community and professional bodies
