Job Description

A position is available on or before September 1, 2020, for a Ph.D. organic chemist with experience in organic synthesis and an interest in medicinal chemistry, pending fulfillment of all requirements pertinent to the COVID-19 crisis. Successful candidates must have experience with various synthetic procedures, NMR techniques, and methods for the characterization of organic compounds. The position carries a competitive salary commensurate with experience. In addition to applying on UK Jobs, candidates should submit an electronic copy of his or her curriculum vita and three letters of recommendation to David Watt (dwatt@uky.edu), Department of Molecular and Cellular Biochemistry, College of Medicine, University of Kentucky, Lexington, KY 40536-0509. The review of applications will continue until the position is filled. The University of Kentucky is an EEO employer and encourages applications from minorities and women.

Lexington is a city of approximately 300,000 in the Bluegrass region of Kentucky and is well known as a center of the horse racing industry. The University of Kentucky is ranked highly among public
