Job Description

The Toulouse Graduate School's program in Advanced Data Analytics (ADTA) at the University of North Texas invites applications for the position of Clinical Assistant Professor in Advanced Data Analytics. ADTA is a rapidly growing MS degree program providing leading edge education in the high-demand field of data analytics. Graduate and undergraduate certificates in data analytics are also offered and taught by ADTA faculty. The ADTA program is distinguished through a case-study approach in its classes, strong partnerships with regional businesses, and intense dedication to student success.

Anticipated instructional needs include, but are not limited to, data analytics, applied statistics, machine

learning, AI, and data engineering. Candidates with experience teaching at the university level and/or mentoring industry professionals in any of these areas are encouraged to apply. Candidates will teach online as well as face-to-face classes, including at UNT's campus in Frisco, Texas.

Successful candidates will work with diverse faculty and students in the ADTA program and across UNT, supporting a strong culture of collaboration and innovation. Candidates are expected to teach a course load of 3-4 courses per semester with the potential for course load reduction for scholarly and professional activities, program advising, course development, or other professional development and service activities. Actual course loads are assigned based on program needs. Salary is competitive and commensurate with experience.
