Job Description

The Department of Chemistry and Biochemistry at Auburn University invites applications for a nine-month, tenure-track faculty position beginning Fall 2021 at the rank of Assistant Professor in Experimental Physical Chemistry.

A successful candidate is expected to establish an extramurally funded, internationally recognized research program in experimental physical chemistry. All areas and subspecialties of experimental physical chemistry will be considered.

Applicants should submit a curriculum vitae, a description of research interests, a statement of teaching philosophy and experience, contact information of three professional references and a description of how their past and/or planned contributions to teaching, research, and/or service will serve to advance the mission of the College of Sciences and Mathematics in creating an inclusive environment. The latter document should include the following: a statement of values as they relate to

the candidate's understanding and commitment to diversity, inclusion, and equity in STEM fields; examples of experiences that demonstrate the candidate's commitment to fostering the success of traditionally underrepresented groups in STEM (students, staff, and/or peers) and to supporting a diversity of perspectives in the classroom, lab, campus, and/or community; and future plans for continuing to advance inclusive excellence, diversity, or equity in the candidate's research, teaching, and service. For more information about the commitment of the College of Sciences and Mathematics to inclusion, equity, and diversity, and the guidelines for preparing this statement, please see: <https://www.auburn.edu/cosam/about/mission-vision-oied.htm>.

The College of Sciences and Mathematics is committed to cultivating culturally competent professionals. The Department of Chemistry and Biochemistry at Auburn University values diversity and is a welcoming and inclusive community of 28 research and teaching faculty and over 80 graduate students. More department information is available at: <http://www.auburn.edu/cosam/departments/chemistry/index.htm>.

Auburn University is an R1 Doctoral University and one of the nation's premier land, sea and space grant institutions. It maintains high levels of research activity and high standards for teaching excellence. Its 2019 enrollment of 30,460 students includes 24,594 undergraduates and 5,866 graduate and professional students. Organized into 12 academic colleges and schools, Auburn's 1,600+ faculty members offer more than 200 educational programs. Auburn University is ranked in the top 50 public universities in the country for its undergraduate programs. For more information on faculty life at Auburn University, please visit: <http://www.auburn.edu/academic/provost/facultyjobs/>.

Auburn University is understanding of and sensitive to the family needs of faculty, including dual-career couples. Please visit the following link for more information on Auburn's guidelines for dual-career services: <http://www.auburn.edu/academic/provost/pdf/guidelines-dual-career-services.pdf>.

Auburn residents enjoy a thriving and vibrant community, recognized as one of the "best small towns in America," with moderate climate and easy access to major cities or to beach and mountain recreational facilities. Situated along the rapidly developing I-85 corridor between Atlanta, Georgia, and Montgomery, Alabama, the combined Auburn-Opelika-Columbus statistical area has a population of over 500,000, with excellent public school systems and regional medical centers.
