Job Description

The University of Alabama in Huntsville is accepting applications for one regular full-time position of Postdoctoral Research Assistant to with in the Center for Plasma and Aeronomic Research for two years with the potential for renewal. The candidate will carry out sponsored research on the corresponding analysis of available remote-sensing observations of the active region evolution associated with eruptive events, including both ground-based and space-born observations. The research methodology includes numerical simulations/modeling of solar active region magnetic field topology and more sophisticated MHD simulation codes.

Qualifications

- PhD in Space Science, Physics, Astronomy or Astrophysics is required.
