Job Description

A postdoctoral research associate position is available in the lab of Dr. Trevor Krabbenhoft in the Department of Biological Sciences and the RENEW Institute (www.buffalo.edu/renew) at the University at Buffalo (SUNY@Buffalo). This is a project funded by the Great Lakes Fishery Commission. Responsibilities for the position will include:

- Focus on using laboratory and bioinformatic approaches for genome assembly and comparative genomic analyses in coregonine (Salmonidae) fishes of the Great Lakes.
- Involvement with a combination of genome sequencing
- DNA methylation and structural variant analysis to identify and understand how genetic variation produces the extensive phenotypic diversity in a species flock of the genus *Coregonus*.
