Job Description

Job Description

The Department of Chemistry and Chemical Biology at the Schaefer School of Engineering and Science, Stevens Institute of Technology (Stevens) seeks to fill a full-time (9 month) lecturer position in Chemistry starting in the Fall 2021. The candidate should be able to deliver a first-class teaching experience in undergraduate general chemistry, a coordinated course serving primarily engineering and science students with many sections, and intermediate chemistry courses, especially physical chemistry with emphasis in computational chemistry. The candidate should possess impeccable organizational and strong collaborative skills, can multitask, and help manage the department's computational facilities. The successful applicant will contribute to curriculum development and assessment activities; and be an active member of the intellectual community. Candidates who can also contribute to the undergraduate research experience is highly desirable. This position requires the

candidate have a PhD in Chemistry or related fields and have previous teaching experience.

The Chemistry and Chemical Biology department has a rich history in the chemical sciences with a mission of educating the next generation of scientists in computational, molecular, and cellular aspects of chemistry and biology. The department offered the first undergraduate degree in Chemical Biology and a former faculty member, Dr. Irving Langmuir, won the 1932 Nobel Prize in surface chemistry. The department currently consists of 15 full time faculty members, approximately 120 undergraduates, 50 Masters and 25 doctoral students.

Stevens Institute of Technology is a private university located in Hoboken, New Jersey. The 55-acre campus is on the Hudson River across from midtown Manhattan within a few minutes from NYC via public transportation. Besides the spectacular view of the Manhattan skyline, Stevens' exceptional location offers excellent opportunities for collaboration with nearby universities, Brookhaven National Laboratory, and major corporate research laboratories. Schaefer School of Engineering and Science is the largest school among four schools at Stevens.

Stevens values diversity and seeks candidates who can contribute to a welcoming climate for students, faculty and staff of all races and genders. We are an NSF ADVANCE institution committed to equitable practices and policies and strongly encourage applications from qualified women and minority candidates, as well as veterans and individuals with disabilities. Stevens offers an intellectually vibrant, diverse, highly interdisciplinary, collaborative, innovative and entrepreneurial community, and is a great place to work.

Applications will be accepted until the position is filled. The search committee will begin review of applications immediately. All applications should be submitted electronically through the HR website at:

<https://stevens.wd5.myworkdayjobs.com/Externalhttps://stevens.wd5.myworkdayjobs.com/External> and include a cover letter, curriculum vitae, statement of teaching interests and philosophy, and contact information of at least three references as a single PDF. For any inquiries, please contact the Search Committee Chair, Prof. Patricia Muisener < pmuisener@stevens.edu >.

Stevens Institute of Technology is an Equal Opportunity Employer. Accordingly, Stevens adheres to an employment policy that prohibits discriminatory practices or harassment against candidates or employees based on legally impermissible factor(s) including, but not necessarily limited to, race, color, religion, creed, sex, national origin, nationality, citizenship status, age, ancestry, marital or domestic partnership or civil union status, familial status, affectional or sexual orientation, gender identity or expression, atypical cellular or blood trait, genetic information, pregnancy or pregnancy-related medical conditions, disability, or any protected military or veteran status. Stevens is a federal contractor under
