**Job Description**

The Daniels lab in the Department of Biological Sciences in the College of Arts and Sciences at the University at Buffalo is seeking a Postdoctoral Associate. The Daniels lab studies the neurobiology of thirst and hunger. We use a combination of behavioral, pharmacological, and neuroanatomical tools to test hypotheses about the brain circuits responsible for thirst, hunger, and the behavioral and physiological responses to those biological states.

- \* Organize and implement research plans.
- \* Develop methods and experiments to test hypotheses in line with the research goals of the laboratory.
- \* Conduct tests, implement procedures, and engage in data collection.
- \* Analyze, evaluate, and present findings in professional journals and at professional conferences and meetings.

The University at Buffalo is the home of the UB Center for Ingestive Behavior Research. The center is
