Job Description

As we prepare to enter our second decade educating students on campus, Florida Polytechnic University will continue to grow our faculty in multiple fields. Our status as an all-STEM university means the majority of our openings are in engineering and applied sciences, with openings at all levels (instructor to professor). In the coming year, the University intends to hire 20 new faculty across all fields:

- Applied Mathematics
- Civil Engineering

**All Ranks - Multiple Positions in Engineering and Applied

- Computer Science
- Cybersecurity Engineering
- Data Science & Business Analytics
- Electrical & Computer Engineering
- Engineering Physics
- Industrial Engineering
- Mechanical & Environmental Engineering

Florida Polytechnic University began its 10th year with students on campus in August and in its first decade has gone from being nothing but a cow pasture at the time of our founding in 2012 to a thriving campus ranked by U.S. News and World Report as among the top 20 public engineering programs in the country that don't offer a doctorate. As a regionally and ABET-accredited university, we will continue to grow in student body size, number of buildings, and very importantly, faculty. Current faculty openings can be found here (<https://floridapoly.edu/provost/faculty-recruitment.php>). The University is recruiting at all ranks and encourages individuals with all levels of experience to apply.

EEO/AA Policy

Florida Polytechnic University is an equal opportunity/equal access institution. It is the policy of the Board of Trustees to provide equal opportunity for employment and educational opportunities to all (including applicants for employment, employees, applicants for admission, students, and others affiliated with the University) without regard to race, color, national origin, ethnicity, sex, religion, age, disability, sexual orientation, marital status, veteran status or genetic information.
