<b>Job Description</b>	

**Job Description Summary**

The Sustainable Bio-Based Materials Lab in the College of Forestry, Wildlife and Environment (CFWE) at Auburn University is seeking a qualified individual for a 12-months postdoctoral fellowship. This is a limited-term, non-tenure track position with anticipated funding for up to two years. Continued employment is contingent on availability of funding and satisfactory performance. The individual in this position will be working on structural characterization of soybean proteins and their performance in bio-adhesives.

**Minimum Qualifications**

Candidates must possess a Ph.D. in nanotechnology, chemical engineering or materials science at

time of employment. The individual should have skills in analytical testing of materials, wood composite manufacture, testing of mechanical and physical properties. The successful candidate must meet eligibility requirements for work in the United States at the time the appointment is scheduled to begin and continue working legally for the term of employment.

### Desired Qualifications

Experience with proteins characterization, including proficient knowledge in FTIR, M-DSC, NMR, as well as background in rheology.

### Special Instructions to Applicants

Applications should be received by December 11, 2023. We anticipate a start date of January 1, 2024. Applicants must complete the online application at this link: <https://www.auemployment.com/postings/> to include a letter of interest, Curriculum vitae, names and full contact information of at least three professional references, and official transcripts (transcript should show conferral of Doctorate degree and date of conferral.)
