Singapore to join as scientific leaders and researchers.

Join the laboratory of Wu Bin at the School of Biological Sciences. We are seeking a Project Officer to contribute to a project focused on protein production and biochemical analysis.

**Key Responsibilities**

- Maintain laboratory housekeeping standards.
- Conduct consistent and high-quality analytical biochemical assays.
- Perform protein and nucleic acid production and purification.
- Analyze experimental results in-depth and present findings to co-workers.

**Job Requirements**

- Bachelor of Science degree in Biological Sciences or related fields.
- Experience in biochemical research related to proteins and nucleic acids.
- Strong written and verbal communication skills in English as required to publish research.
- A strong spirit of teamwork.

The College of Science seeks a diverse and inclusive workforce and is committed to equality of
