Science degrees in Computer Science and M.Sc. and Ph.D. programs in Electrical Engineering and Computer Science.

The department invites applications for multiple positions in all areas of Computer Science at the rank of Assistant or Associate Professor. Special consideration will be given to candidates in the areas of Software Engineering, Databases, and Quantum Computing. Exceptional candidates at the Full Professor level with at least two years of experience in that rank will also be considered. Research and teaching interests may include, but are not limited to, software engineering, databases, quantum computing, operating systems, artificial intelligence, and machine learning.

Qualifications

A Ph.D. or equivalent degree in Computer Science, Software Engineering or related disciplines from an accredited institution is required. Preference will be given to candidates with education from and/or previous service in distinguished institutions of higher education. The successful candidates will join a vibrant and forward-thinking department with a focus on cutting-edge research and excellence in education. We are seeking candidates, preferably specialized in Software Engineering, Data Bases, and Quantum Computing, to contribute to our academic mission. The candidates are expected to engage in high-impact research, teach undergraduate and graduate courses, mentor and advise students, fostering intellectual curiosity and research excellence and actively participate in the academic community.

Candidates should demonstrate expertise in various areas of Computer Science, have an established research reputation or outstanding research potential, strong publication record in top venues including leading conferences and journals, the ability to attract external research funding, and a strong commitment to teaching at the undergraduate and graduate levels. The candidate's CV should include the following information, among others: Field of Specialization, Academic Qualifications, Academic Honors and Awards, Membership of Professional Bodies; Summary of Courses Taught, Participation in Academic Accreditation if any; Students Supervised by Level, Complete List of Publications, Citation Data from Scopus and Scholar with links, Research Grants Obtained; Membership of Conference Committees, Membership of Journal Editorial Boards, and Service as Reviewer.

We offer competitive remuneration, generous employment benefits, and access to funding to undertake research of relevance to the industry.

Should you require further assistance or if you face any issue with the online application, please feel free to contact the Recruitment Team at: recruitmentteam@ku.ac.ae.
