This position is located at the Auburn University Shellfish Laboratory (AUSL) in Dauphin Island, Alabama. The individual selected for the position will coordinate with the AUSL director and manager to assist with research program coordination, experimental design, statistical analysis, publication and grant proposal writing, hatchery/field production of shellfish, and hatchery/field management of experimental arrays.

This is a limited-term appointment funded from external sources. Continuation of employment is contingent upon availability of funds.

Auburn University is more than just an institution; it's a vibrant community where real people come together to make a difference. Our commitment to students, employees, communities, and our world runs deep, and it's reflected in every corner of our campus and beyond.

Life-Changing Impact: At Auburn, our work changes lives. Whether it's groundbreaking research, innovative teaching, administrative operations or community outreach, every effort contributes to positive change. We're not just clocking in; we're making a lasting difference in the lives of others.

How We Support You: Auburn cares for its greatest assets—its employees. Generous benefits, educational opportunities, and a supportive work environment make it a place where you can thrive. From health insurance to retirement plans, we've got you covered. Learn more about how we support employees by visiting aub.ie/working-at-auburn.

Come and Stay: The median length of employment for an Auburn employee is **10 years**. That's because Auburn invests in its people. We're not a revolving door; we're a family. The Auburn Family. We grow together, learn together, and build lasting relationships.

Diverse and Inclusive Campus Community: Our community thrives on diversity. We celebrate different perspectives, backgrounds, and experiences. When you work at Auburn, you're part of a rich tapestry of individuals who bring their authentic selves and unique perspectives to the table.
