Japan. We are inviting applications for tenure-track and tenured faculty positions.

We provide:

- Sustained research funding for *your* scientific vision
- Fully funded PhD students, postdoctoral researchers, lab techs, and staff scientists
- World-class core facilities and expert support staff
- Support for amplifying your scientific impact (e.g., technology transfer, outreach, collaborations, etc.)
- Full administrative support

Our culture and environment:

- No faculty hierarchies or departments
- A thriving international research community representing 80+ countries
- A vibrant, safe, multicultural setting on the beautiful island of Okinawa

Applications are sought in two areas:

- **Mathematical Sciences**, including pure math, applied math, statistics, and data sciences. Any potential connections to the broad areas represented at OIST would be welcome.
- **Energy and Sustainability**, broadly defined. Interdisciplinary approaches complementing, as well as impactful energy solutions for sub-tropical islands are particularly welcome.

As a core part of our expansion plan and research vision, we seek to hire three tenure-track or tenured faculty members in each area.

Successful applicants will enjoy competitive remuneration packages with additional benefits, such as housing and commuting allowances, dual-career support, and family support.

Please apply online with these application documents (all to be submitted in English):

Cover letter

CV, indicating three publications of note
