Description

The Division of Math and Natural Sciences at the University of Michigan-Flint seeks applicants for a tenure-track position at the Assistant, Associate, or Full Professor level starting in January or August 2025. A candidate is sought with a strong background in forest ecology/forest management. Candidates should have a Ph.D. in Biology/Forestry or relevant field. ABD candidates will be considered, but any job offer will be conditional on completing the Ph.D. before starting the position. A successful candidate must have: a broad background in biology (e.g. an undergraduate education that included courses such as cell biology, genetics, organismal biology, ecology, zoology, etc.). A candidate with post-doctoral research or management experience is preferred. Candidates must articulate and demonstrate teaching excellence for undergraduate and graduate forest ecology/forest management courses (with field and laboratory components). Faculty filling this position will work collaboratively with colleagues in course activities, and there are opportunities to work collaboratively with colleagues in research. Faculty filling this position will provide service to the Discipline, Department, College, University, Community and Profession. Applicants must be willing to actively involve graduate and undergraduate students in research and develop a robust research program that includes securing external grant funding and publishing in scholarly journals.

The Biology Department has sixteen full-time faculty and offers undergraduate degrees in Human Biology B.S., Biology B.S., Molecular Biology and Biotechnology B.S., Wildlife Biology B.S. along with standalone and dual-degree M.S. programs in Biology. Faculty in our programs provide engaged instruction and mentorship to students through a combination of course-work and faculty-led research projects. Faculty are provided with research space, access to a cadaver lab and vivarium, plus a variety of chemical and biological science instrumentation such as LC-MS, Bruker 400 MHz NMR, HPLC, Spectroscopic Instrumentation (UV-vis, Fluorimeter, FTIR), standard and real-time PCR, cell culture facilities, cell imaging and microscopy instrumentation, and more. For other specific discipline information please visit our website at: <https://www.umflint.edu/cit/biology/>.

Applications must include a letter of application, curriculum vitae, unofficial undergraduate and graduate transcripts; a statement of teaching philosophy; a statement of research plans; a separate statement of Equity, Diversity, and Inclusion that includes a commitment to teaching a diverse student body; and three names of professional references with contact information. UM-Flint is an affirmative

action, equal opportunity employer, supportive of the needs of dual career couples, and encourages applications from underrepresented groups. The Division of Math and Natural Sciences seeks to recruit and retain a workforce that reflects the diversity of our student and community populations in addition to maintaining the excellence of the University. To this extent, we strive to offer our students richly varied disciplines, perspectives, and ways of knowing and learning.

Review of applications will begin September 23, 2024 and continue until the position is filled, with an anticipated starting date of January 6th or August 15th, 2025.

Qualifications

Applicants of all ranks require an earned doctorate in Biology, or relevant field by the appointment date. Applicants for tenured Associate and Full Professor must have academic experience demonstrating excellent teaching in experiential settings and a strong scholarship record, with a history of successful grant writing.

- Ph.D. in biology/forestry or related area with a strong background in forest ecology/forest management. ABD candidates will be considered, but any job offer will be conditional on completing the Ph.D. before starting the position. Record of teaching excellence in face-to-face, online, and experiential settings commensurate with desired rank
- Significant coursework related to forest ecology/forest management
- Undergraduate coursework which includes broad training in biology.
- Ability to teach freshman biology major courses as well as upper-level courses in forest ecology/forest management.
- Ability to successfully carry out a research program at UM-Flint involving undergraduate and graduate students, securing external grants and publishing in peer-reviewed journals.
-

Candidates will work collaboratively with colleagues in course activities and have the opportunity to collaborate with colleagues in research activities.

- Candidates will participate in service activities at the department, college, and university levels. Candidates should be committed to the “engaged service” component of our institutional mission.

Application Instructions

Apply using the "[Apply](#)" link on this page.

How To Apply:

Applications must include: (a) cover letter, (b) curriculum vitae, (c) teaching statement, (d) research statement, (e) diversity statement, (f) complete contact information of at least four professional references. Review of applications will begin October 1, 2023 and full consideration will be given to applications received by November 1, 2023. Applications will continue to be accepted until the positions are filled, with an anticipated starting date of January 1, 2024 or August 15, 2024 depending on hiring timeline and candidate availability.

Tenure is contingent upon the University of Michigan Board of Regents approval.

Mode of Work

Hybrid

The work requirements allow both onsite and offsite work and an employee has an expected recurring onsite presence. On occasion, the employee may be required and must be available to work onsite more frequently if necessitated by unit leadership or their designee and/or the job requirements.

Positions that are eligible for hybrid or mobile/remote work mode are at the discretion of the hiring department. Work agreements are reviewed annually at a minimum and are subject to change at any time, and for any reason, throughout the course of employment. Learn more about the work modes here.

Background Screening

The University of Michigan conducts background checks on all job candidates upon acceptance of a contingent offer and may use a third-party administrator to conduct background checks. Background checks are performed in compliance with the Fair Credit Reporting Act.

The University of Michigan is committed to recruiting, fostering and maintaining a diverse work culture that respects the rights and dignity of each individual, without regard to race, color, national origin, ancestry, religious creed, sex, gender identity, sexual orientation, gender expression, height, weight, marital status, disability, medical condition, age, or veteran status. Applicants must be eligible to work in the United States.

Application Process

This institution is using Interfolio's Faculty Search to conduct this search. Applicants to this position receive a free Dossier account and can send all application materials, including confidential letters of recommendation, free of charge. [Apply now](#).

Equal Employment Opportunity Statement

The University of Michigan is an equal opportunity/affirmative action employer.
