engineering. Areas of interest include, but are not limited to, natural language processing, cybersecurity, computer vision, robotic process automation, multi-agent systems, formal methods, automated software testing, knowledge-based software engineering, and blockchain technologies. The successful candidate will be expected to implement evidence-based pedagogy in both undergraduate and graduate computer science education. Additionally, the candidate should establish a robust independent research program and actively promote interdisciplinary collaborations with researchers at our Cybersecurity Center (<https://www.umassd.edu/cybersecurity-center/>) and the Center for Scientific Computing and Data Science Research (<https://www.cscdr.umassd.edu/>).

The University of Massachusetts Dartmouth (UMassD) is located in the beautiful ocean side community of Dartmouth, about an hour south of Boston, a half-hour east of Providence, and a half-hour west of Cape Cod. It offers a world-class education to more than 7,500 undergraduate and graduate students each year in nearly 60 undergraduate and 50 graduate (MS & PhD) programs offered by the College of Engineering, College of Nursing, Charlton College of Business, College of Arts and Sciences, College of Visual and Performing Arts, School of Law and School for Marine Science and Technology. UMassD has transformed the lives of more than 50,000 alumni and distinguishes itself as a vibrant, public research university dedicated to engaged learning and innovative research. UMassD is the only Massachusetts national research university south of Boston and serves as a catalyst for the development of marine science and technology industries along the south coast of Massachusetts.
