1. Applicants should have a Ph.D. degree by the time of hire and must be able to teach basic math courses such as calculus (both in single variable and multivariable), linear algebra, and differential equations. Expertise in one or more of the following areas of mathematics: applied mathematics, probability and mathematical statistics, data sciences, data analytics, optimization, and data mining is preferable.
2. Effective oral and written communication in English is required, as English is the official language of the Institute.

**To Apply:**

Qualified applicants should submit their applications to **facultysearch@scupi.cn**.

The application should include the following materials in PDF form:

**Please note that incomplete applications will not be reviewed.**

1. Curriculum Vitae
2. Statement of Teaching Interests
3. Name and Contact Information of at least three references

Review of applications will continue until the position is filled.

SCUPI is an academic entity jointly established by Sichuan University and the University of Pittsburgh. Approved by China's Ministry of Education in 2014, SCUPI is one of the large-scale partnerships between a top US university and a top-rate Chinese university. SCUPI now enrolls around 1025 undergraduate students in five majors, including Computer Science, Electrical and Computer Engineering, Industrial Engineering, Materials Science and Engineering, and Mechanical Engineering. The technical curricula of SCUPI comply fully with those taught at the Swanson School of Engineering (SSOE) and the School of Computing and Information (SCI) of the University of Pittsburgh. SCUPI will continue to grow in size and discipline. Along with this strategic plan, a new SCUPI building is near completion. This new space and facilities will offer vast opportunities for innovations in education, research, and career development. Faculty and students benefit from the resources, support, and diverse environment fostered by Sichuan University, the University of Pittsburgh, and other partnering institutions around the globe.
