The Department of Computer Science in the College of Social Sciences, Mathematics, and Education at The University of Tampa invites applications for two full-time tenure track positions at the rank of assistant professor beginning in August 2025.

The Department of Computer Science and B.S. in Computer Science are quickly growing. The program enrolled its inaugural class in the 2021-22 academic year, and this is an ideal opportunity to participate in the growth of a relatively new degree program and its unique curriculum.

The ideal candidate will have earned a Ph.D. in computer science or a closely related field and have a broad background in computer science. ABD will be considered; however, the terminal degree must be earned by July 2025 as a condition of employment.

The Department of Computer Science values faculty who balance excellent teaching with active scholarship. Responsibilities include teaching courses at the undergraduate level, advising students, conducting research, and participating in academic and professional service activities. Prior experience teaching undergraduate students is strongly preferred. The normal teaching load is three four-credit hour courses per semester. The successful candidate is expected to teach a wide variety of undergraduate courses in computer science as well as develop new courses in relevant areas of expertise. Strong candidates from all areas within computer science will be considered; however, applicants with teaching experience and active research in software engineering and DevOps, data mining and data management, machine learning and artificial intelligence, computer graphics and visualization, and human-computer interaction are especially encouraged to apply.

Highly effective, engaging teaching is a top priority, and innovative approaches to teaching are welcome. Professional achievement and service to the Department, College, University, and the broader community are also required. Candidates should be committed to excellence in teaching, research, and service.

The faculty and administrators in the College of Social Sciences, Mathematics, and Education, along with professional staff across the University, will provide meaningful support for your teaching and scholarship as elements of your personal and career development. We encourage you to grow professionally, and we support a healthy work-life integration to nurture that growth. The vision of the College of Social Sciences, Mathematics, and Education is "Empowering learners to make a difference." All candidates are expected to contribute to the diversity of our curriculum and community. We are searching for teacher-scholars who will serve as mentors for our diverse student body, and who have a demonstrated commitment to the academic success of all students.

All required documents listed below should be uploaded to the attachment box at the bottom of the "My Experience" page of the application before continuing through the application.

1. Cover letter
2. Detailed curriculum vitae
3. Statement of teaching philosophy
4. Statement of research
5. Statement of diversity, equity and inclusion
6. Graduate transcript
7. Full contact information of at least four references

Review of applications will begin immediately and continue until the position is filled. Upon request, applicants may be required to submit a brief video sample of their teaching.

Additional Information

The University delivers challenging and high-quality educational experiences to a diverse group of learners. The University has a strong core curriculum rooted in the liberal arts, an enduring commitment to internationalization that has garnered the Senator Paul Simon Award, and a practical, experiential approach to learning. The University offers more than 200 areas of study, including majors in our colleges of Arts and Letters, Business, Natural and Health Sciences, and Social Sciences, Mathematics and Education, and 19 master's programs.

The College of Social Sciences, Mathematics and Education offers rigorous, high-quality undergraduate curricula in Actuarial Science, Computer Science, Criminology and Criminal Justice, Data Science, Education, History, International Studies, Mathematics, Political Science, Psychology, and Applied Sociology. Graduate programs include a M.S. in Criminology and Criminal Justice, a M.Ed. in Curriculum & Instruction, a M.Ed. in Educational Leadership, and a M.S. in Instructional Design and Technology. Our faculty are excellent teachers and scholars who engage their students both in and out of the classroom. Our college continually fosters relationships with governmental, not-for-profit, and community organizations in the greater Tampa Bay region to provide students with the opportunity to pursue an internship, volunteer, or interact with professionals working in their chosen field. Each department also offers study abroad courses that students can take for credit toward their degree.
