Responsibilities include supporting two to three advanced undergraduate courses per year, holding recitations/office hours, working closely with students, and supporting our general educational mission. In addition to this load, successful candidates are expected to conduct research in collaboration with CMU-Q faculty or local partners.

We are particularly interested in candidates in the areas of Theoretical Computer Science, Artificial Intelligence, Machine Learning, or Deep Learning. Outstanding candidates in other areas are also encouraged to apply. CMU Qatar's benefits package is highly attractive, with salaries comparable to those in the US, but free of tax. Relocation, housing, transportation, and health benefits are also covered.

About CMU in Qatar

CMU in Qatar (CMUQ) operates in concert with several other American and European branch campuses under the umbrella of Qatar Foundation's Education City (<https://www.qf.org.qa/education/education-city>). The branch campus closely follows the admissions requirements and English language curriculum of the home campus in Pittsburgh, USA which awards all degrees. The several thousand students in the Education City are a broad mix of nationalities, but primarily from the Middle East, North Africa, and South Asia. CMUQ's faculty is a mix of professionals hired specifically for this campus and seconded by faculty from the main campus. CMUQ's primary focus is undergraduate education in Business Administration, Biological Sciences, Computer Science, and Information Systems.

Our Commitment to Diversity, Equity, and Inclusion

Carnegie Mellon University is an equal opportunity employer and is committed to increasing the diversity of its community on a range of intellectual, cultural, and social dimensions. Carnegie Mellon welcomes faculty applicants who will contribute to this diversity through their research, teaching, and service, including women, members of minority groups, protected veterans, individuals with disabilities, and others who would contribute in different ways.

Qualifications

- Have completed a PhD in computer science or related fields by the time of being hired.
- A proven track record of productive research.
- Exceptionally strong communication and interpersonal skills.
- Desire to gain hands-on teaching experience.
- Be able to work independently, as well as in a team.
