Job Description

Job Details

Description

As a part of a diverse community of faculty and staff who represent many faith systems and worldviews, Marian University seeks an Assistant Professor of Biology: Anatomy and Physiology to promote our Catholic Franciscan mission and identity by those showing the ability to develop an undergraduate research program. Successful candidates will also foster student learning through innovative pedagogy, inclusive practices, and should be enthusiastic about contributing to research across the curriculum model that integrates authentic, novel research projects into biology courses.

The Department of Biology at Marian University is a collaborative and growing academic community

committed to fostering student engagement, problem solving, and communication.? Marian University believes that to grow stronger it is essential to recruit and retain a diverse faculty to build an inclusive community. Thus, we welcome and encourage applications across the intersections of diverse races, ethnicities, religions, sexual orientations, gender identities, ages, socio-economic backgrounds, political perspectives, cultures, and national origins.

Marian University is a Catholic, comprehensive, regional institution of higher education dedicated to excellent teaching and learning in the Franciscan and liberal arts traditions and offers a multitude of undergraduate, graduate, and professional programs.? Marian University has been experiencing significant growth over the last decade and is expanding its academic offerings in many areas.

Essential Duties and Responsibilities:

Actively engage the Catholic Franciscan mission and identity of Marian University by modeling the Franciscan Sponsorship Values and honoring the legacy of the founding congregation through transformative education, unity in diversity, leadership through service, integrating faith and life, and institutional policies.

Teach 12 load hours per semester in Human Anatomy, Medical Terminology, and Human Physiology. Course releases may be available for individuals participating in grant writing, research, or developing innovative pedagogy.

Demonstrate academic excellence, the potential for distinctive contributions to the holistic development of students, an interest in developing interdisciplinary programming, actively participate in the life of the campus, and help advance the mission and values of the university.

Engage students in research, scholarship, and other professional activities.

Mentor and advise students through academic advising, clubs, research, and internship opportunities, particularly those of pre-professional or pre-medical programs.

Participate in the life of the campus and university service, including participation in faculty governance and co-curricular programs.

Contribute to curriculum development and assessment within the department.

Actively participate in faculty governance within the department, within the School of Science and Mathematics, and across the university.

Required Qualifications:

Knowledge of and commitment to the mission of Marian University.

A Ph.D. in Anatomy or related field is preferred. Consideration will also be given to outstanding candidates that are ABD or have an appropriate Master's Degree.

Demonstrated potential for excellence and innovation in student-centered instruction.

Demonstrated interest in science teaching pedagogy, curriculum, and program development.
