Job Description

The Department of Computer Science at Old Dominion University is seeking a full-time tenure-track faculty member with **expertise in the areas of artificial intelligence (AI), machine learning, data science, and related areas**. We are especially interested in those who are interdisciplinary, applying their expertise to several other domains. The appointment will be at the Assistant Professor rank with an anticipated start date of July 2025.

The position carries a teaching load of 3 courses/year with a reduced course load during the first two years. The Assistant Professor is also expected to actively pursue external research grants and supervise Ph.D. student research. Undergraduate research supervision is highly recommended. Interdisciplinary research collaboration with other researchers at ODU is encouraged. Notably, this Assistant Professor is expected to collaborate in teaching and research with Old Dominion University's School of Data Science. Excellent collaborative research opportunities are also available at ODU's School of Cybersecurity, School of Data Science, and at nearby NASA Langley Research Center,
