Scientific Cooperation. These fellowships are for the 2025-2026 academic year and are eligible to be renewed for a second year. Postdoctoral positions are available for scholars performing research in topics related to drylands, including: desert ecology, solar energy, environmental physics, soil-plant-atmosphere interactions, rainfed and irrigated agriculture, hydrology, aquaculture, environmental microbiology, desalination and water treatment, and biotechnology. A detailed list of the various research activities of the Institutes' faculty can be found at <http://in.bgu.ac.il/en/bidr/Pages/Academic-Staff.aspx>

Candidates should contact a prospective supervisor to develop a research program with him/her before applying for the BCSC postdoctoral fellowship.

*Fellowships are awarded on a competitive basis to candidates who received their Ph.D. degree within the last five years from the start date of the postdoctoral position.

*The program is open to scientists from all over the world.

*The current value of a yearly BCSC fellowship is approximately \$25,000 USD (paid in NIS (Israeli currency)). Housing costs are not included.

*Exceptional candidates may be awarded the prestigious Jacob Blaustein Fellowship, which includes a yearly fellowship of approximately \$27,000 USD (paid in NIS (Israeli currency)), a roundtrip air ticket, and complimentary lodging at the BIDR's student/scholar housing unit. All applicants are automatically considered for this fellowship and no additional material is required to apply.

*The deadline for applications is March 17, 2025, and applicants will be notified of the BCSC Steering Committee's decision in May 2025.

*Fellowships are not available to those who received their Ph.D. at BGU.

Detailed instructions on the preparation and submission of applications can be found at:

<http://in.bgu.ac.il/en/bidr/BCSC/Pages/fellowships.aspx>
