Assistant / Associate Professor in Chemistry

The College of Humanities and Sciences at Ajman University invites applications for the position of **Assistant/Associate Professor in Chemistry**, starting Spring / Fall Semester 2025.

Job Responsibilities:

- Develop and deliver engaging courses in the field of Chemistry, aligning with the three core university pillars: **Teaching, Research, and Service**.
- Evaluate and monitor student progress, providing constructive feedback to support academic success.
- Conduct high-quality research in Chemistry and publish findings in reputable journals and conferences.
- Organize and manage instructional resources, develop course outlines, and establish community and industry networks.
- Support curriculum development in Chemistry to align with advancements in the field and interdisciplinary connections.
- Actively participate in accreditation processes to ensure compliance with institutional and national standards.
- Utilize innovative teaching methods, including laboratory-based instruction, to achieve course objectives effectively.
- Maintain professional and supportive relationships with students to foster a positive learning environment.
- Perform other job-related duties as assigned by the department or university.

Job Requirements:

- A Ph.D. in Chemistry or a closely related field from reputable institution.
- Demonstrated excellence in teaching Chemistry at the university level, with a strong commitment to student engagement and success.
- Proven research experience with a record of publications in high-impact journals.
- Previous experience in course development, instructional design, and laboratory teaching.
- Advanced knowledge of contemporary laboratory equipment and safety protocols.

- Ability to integrate technology in teaching, such as e-learning systems, digital presentations, and online course delivery.
- Excellent communication skills, with fluency in English.

Skills Required:

- Strong pedagogical skills and the ability to remain proficient and current in the field of Chemistry.
- Ability to conduct and lead high-quality research in specialized areas of Chemistry.
- Proficiency in modern teaching tools, including Learning Management Systems (LMS).
- Dedication to ongoing professional development and academic excellence.
- Ability to work collaboratively with diverse academic communities and contribute to interdisciplinary initiatives.
- Strong organizational and mentorship skills to guide students in both academic and professional capacities.

Notes:

- Only shortlisted candidates will be contacted.
- Applications will be reviewed on a rolling basis until the position is filled.
