Job Description

As a **Research Scientist**, under the direction of a researcher in the largest comprehensive university-connected research foundation in the country, you are responsible for investigation and examination tasks within the predetermined research scope or methodology.

Tasks may include:

- Engage in research activities
- Evaluate theories and principles
- Perform technical tasks associated with research activity

Incumbents have the credentials of advanced training and experience and are engaged in research activities directed toward the investigation and evaluation of current field theories and principles. Your work will require the theoretical and practical application of a body of highly specialized knowledge.
