to industry demands while working on research projects in SIT.

The primary responsibility of this role is to deliver on an industry innovation research project where you will be part of the research team to develop a novel near-eye display technology for augmented reality (AR).

Key Responsibilities

- Participate in the research project with Principal Investigator (PI), Co-PI and the research team members to ensure all project deliverables are met.
- Conduct research towards a novel near-eye display for augmented reality and develop a prototype.
- Coordinate procurement and liaison with vendors/suppliers and carry out other project related activities.
- Work independently, as well as within a team, to ensure proper operation and maintenance of equipment.

Job Requirements

- A Bachelor/Master's degree in computer, mechanics or related programmes.
- Knowledge and experience in near-eye display for VR/AR will be advantageous.
- Able to build and maintain strong working relationships with people within and external to the university.
- Show strong initiative and take ownership of work.
- Teamwork spirit

Key Competencies

- \geq 2 years of research experience in near-eye display technologies for VR/MR.
- Teamwork spirit and ownership attitude.
