Worcester Polytechnic Institute - WPI

JOB DESCRIPTION SUMMARY

The Computer Science Department and the Artificial Intelligence Program at Worcester Polytechnic Institute (WPI) seek applicants for dual-mission (teaching and research) tenure-track faculty positions in Artificial Intelligence.

JOB DESCRIPTION

Looking for Computer Science faculty colleagues who engage deeply in both high-impact research and high-quality teaching in Artificial Intelligence within a curriculum that embraces student projects and independent learning? We invite you to join our WPI community and help us enrich our diverse and inclusive environment.

About the Position. The Computer Science Department and the Artificial Intelligence Program invite applications for full-time dual-mission (teaching and research) tenure-track positions for the Fall of 2025 whose areas of expertise are in Artificial Intelligence. Specific themes within Artificial Intelligence include, but are not limited to, Responsible AI, Machine Learning Operations (MLOps), Generative AI, Large-Language Models, Human-Centric AI, Data Systems for AI, Personalized Assistants, AI Education, Human-AI Interaction, and Multi-Agent systems. We also welcome experts in AI applications including, but not limited to, AI for Social Good, AI for Health, AI for Virtual Worlds, AI for Education, and AI for Science and Engineering Advances. In addition to these specific areas, outstanding candidates in any AI area will receive full consideration. Candidates should have a PhD in Computer Science or a closely related field, and the potential for excellence in research and teaching. The successful candidates will work with colleagues at WPI to build up AI programs and initiatives.

About the Department. The Computer Science Department has 40 full-time faculty with research and teaching expertise in core Computer Science and CS-related interdisciplinary fields. Computer Science faculty collaborating in interdisciplinary programs (Artificial Intelligence, Bioinformatics and Computational Biology, Cyber Security, Data Science, Interactive Media and Game Development, Learning Sciences, and Neuroscience), each including faculty from diverse disciplines beyond Computer Science. Most of these programs are housed in a new state-of-the-art academic building near the building housing Computer Science. You would be joining a community of strong researchers and caring educators with expertise in AI and fields closely related to AI, including machine/deep learning, NLP, graph mining, data science, computer vision, reinforcement learning, generative AI, AI in health, educational data mining, scalable data systems, and more, focused on tackling real-world challenges with societal impact. Faculty research is supported by the NSF, NIH, DoE, and other federal

and private funding sources with recent annual new research funding averaging around \$10 million. Computer Science itself has over 1,250 undergraduate students, over 65 Ph.D. students, and around 190 students seeking master's-level degrees. Our interdisciplinary programs include faculty from other disciplines beyond Computer Science, and they are home to students in the respective interdisciplinary majors at both the undergraduate and graduate levels.

About the University. WPI is a selective private university with an innovative curriculum centered on science, engineering, arts, business, and global studies. Ranked highly by US News & World Report among national comprehensive universities, WPI has roughly 5,500 undergraduates and 2,600 graduate students. WPI is an internationally recognized leader in project-based learning and global education. Most undergraduate students at WPI participate in a global project experience completing academic projects at WPI's 50+ project centers across six continents. We are most proud of our No. 1 ranking for "faculty who best combine research and teaching" from the Wall Street Journal and Times Higher Ed. Located one hour west of Boston, the university's campus is in Worcester, Massachusetts, a thriving 21st century college city recognized as a growing hub of scientific and technological innovation, and known for a thriving economy, rich culture, and quality of life. The University of Massachusetts Medical School, numerous technology companies and many colleges and universities are in the immediate area, making it ideal for two-career families. We support our faculty to help them succeed and provide faculty mentoring support for our early and mid-career colleagues.

Questions about the hiring process should be sent to recruit@cs.wpi.edu. More information about the positions and instructions for applying are available at <https://www.wpi.edu/academics/departments/computer-science/hiring>.

Applicants will need to include detailed research and teaching statements; a Curriculum Vitae; and contact information for at least three references. **All materials should be saved into a single PDF file and uploaded into the Resume / Cover Letter field.**

The position will start in August 2025. The deadline for applications is December 15, 2024, with applications continuing to be considered after that date until the positions are filled.

FLSA STATUS

United States of America (Exempt)

WPI is an Equal Opportunity Employer that actively seeks to increase the diversity of its workplace. All qualified candidates will receive consideration for employment without regard to race, color, age, religion, sex, sexual orientation, gender identity, national origin, veteran status, or disability. It seeks individuals with diverse backgrounds and experiences who will contribute to a culture of creativity, collaboration, inclusion, problem solving, innovation, high

About WPI

WPI is a vibrant, active, and diverse community of extraordinary students, world-renowned faculty, and state of the art research facilities. At WPI, we have competitive and comprehensive benefits, including health insurance, long-term care, retirement, tuition assistance, flexible spending accounts, work-life balance and much more.

Diversity & Inclusion at WPI

WPI is committed to creating an inclusive workplace where everyone feels valued and respected; a place where every student, faculty and staff member can be themselves, so that they can study, live, and work comfortably, to reach their full potential, and make meaningful contributions in order to meet departmental and institutional goals. WPI thrives on innovative practice and welcomes diverse perspectives, insight, and people from diverse lived experiences, to enhance the community environment and propel the institution to the next level in a competitive, global marketplace.
