Posting Detail Information

Position Summary

The [Pillon Lab](#) is seeking a **Research Technician II**. The lab's research program lies at the intersection of structural biology, biochemistry, molecular biology, and RNA biology. The candidate will carry out routine laboratory procedures such as biochemical preparations, molecular biology procedures, and cell culture, while assisting others with routine tasks in the laboratory that directly relate to the project. They will also be tasked with completing more specific experiments that require their knowledge or experience. The candidate will assist with laboratory upkeep and ordering as necessary for the project.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization. Learn more about the great [benefits](#) the University at Buffalo has to offer.

About The University at Buffalo

The University at Buffalo (UB) #ubuffalo is one of America's leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact.
