### Posting Detail Information

#### Position Summary

The [Experimental High Energy Physics](#) group at the University at Buffalo, The State University of New York (UB) invites applications for two **Postdoctoral Research Associate** positions to work on the CMS experiment at LHC. Candidates should have a strong record or interest in data analysis, experimental operations, and/or hardware development. The successful candidate will have the ability to work in a collaborative environment, to communicate scientific results, and to develop an independent research program. The candidate should have completed a Ph.D in experimental particle physics, nuclear physics, or a related field by the time of appointment. The position can be based at CERN or Fermilab.

#### Responsibilities include:

- Conduct research in high energy particle physics with the CMS experiment at CERN.
- Contribute to detector operations, upgrades, and/or R&D for future colliders.
- Write scientific papers and present results at conferences and workshops.
- Provide mentorship to students.

#### Contact Information for Questions:

- **David Yu:** [dyu23@buffalo.edu](mailto:dyu23@buffalo.edu)
- **Christine McLean:** [cmclean@buffalo.edu](mailto:cmclean@buffalo.edu)

#### Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization. Learn more about the great [benefits](#) the University at Buffalo has to offer.

#### About The University at Buffalo

The University at Buffalo (UB) #ubuffalo is one of Americas leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact. UB is a premier, research-intensive public university dedicated to academic excellence. Our research,
