with a stellar constellation of institutes and scientists dedicated to ageing research in Life Sciences. We offer up to

5 Master Fellowships

to highly motivated and talented students holding a BSc degree in Biology, Biochemistry or a related subject. The Master fellowship programme is embedded in a cutting-edge research environment and will **start on October 1, 2025**. Admission to one of the structured and well-established Master programmes in Biological Sciences (Computational Biology, Genetics and Biology of Aging and Regeneration or Neuroscience) or the Master programme Biochemistry and Molecular Medicine at the University of Cologne is a prerequisite for receiving a Master fellowship. Master Fellowships are 992 €/month and will be awarded for a maximum duration of 1.5 years and until the start of the Master thesis project.

We offer

- An outstanding international research environment at one of the most prestigious ageing research cluster in Europe
- Close contact to our principal investigators and research groups of the above-mentioned institutes
- Possibility to apply to the Cologne Graduate School of Ageing Research for structured PhD studies
- Excellent infrastructure for training and research by internationally recognized scientists in facilities with state-of-the-art technologies
- Support and guidance for international students in all administrative matters

We are looking for

- Highly qualified students holding a BSc degree in Biology, Biochemistry or a related subject that are motivated to explore the field of ageing research at an early career stage
- Outstanding students of the Master programme Biochemistry and Molecular Medicine of the University of Cologne who started in the summer term 2025
