# **Position Summary**

The Lombardo Lab is a newly established laboratory in the <u>Department of Biochemistry</u> that employs a diverse array of technologies to explore the fundamental mechanisms of cell polarity in eukaryotic cells. Under the general supervision of Dr. Lombardo, the **Research Technician II** will provide essential laboratory support and actively participate in specific research projects. These projects include media preparation, tissue culture, molecular biology, cell transfection, high-resolution light microscopy, protein purification, and characterization. Additional responsibilities encompass media and solution preparation, as well as the disposal of hazardous and biological waste. You will also assist other lab members with various tasks as needed.

### Learn more:

- Our <u>benefits</u>, where we prioritize your well-being and success to enhance every aspect of your life.
- o Being a part of the University at Buffalo community.

As an Equal Opportunity / Affirmative Action employer, the Research Foundation will not discriminate in its employment practices due to an applicants race, color, religion, sex, sexual orientation, gender identity, national origin and veteran or disability status.

#### **Minimum Qualifications**

- Associates degree in science or technology **or** 2 years formal training in subject matter related to this project and 3 years experience related to this project.
- Must be an effective communicator both in understanding tasks and techniques as well as
  working with other lab personnel. The lab is highly interactive, and this position requires an
  enthusiastic and devoted individual who wants to gain experience and contribute to a cell biology
  research effort.
- Working knowledge with basic computer programs such as MS Word, Excel, and e-mail. Must be highly organized, familiar with databases and have excellent computer skills.
- Ability to work independently, adhere to deadlines, and multi-task. Ability to carry out experiments to completion with limited guidance.
- Ability to work with chemicals and biohazards and to maintain lab safety protocol and procedures at all times.
