Position Summary

The Institute for Lasers Photonics and Biophotonics at the University at Buffalo is seeking a **Postdoctoral Associate** to conduct multidisciplinary research in the area of Quantum Optics experiments and generation of entangled photons using femtosecond laser and nonlinear optical techniques.

Job duties will include:

- Exploring how non-classical states of light can enhance modern microscopic imaging techniques.
- Designing setting up and executing the experiments
- Developing relevant algorithms for experimental data post-processing
- Mentor and work closely with multiple Ph.D. and M.S. students as well as four principal investigators from different disciplines.
- Frequent oral and written reporting will be required.

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. We support your growth and development through our career coaching and training department and we qualify as a public service loan forgiveness organization. identity, national origin and veteran or disability status.

Minimum Qualifications

- Ph.D. in a related field

Preferred Qualifications

- Experience in Chemistry, Physics, Photonics and Quantum Optics
- Basic professional knowledge of the disciplinary field and the ability to relate this knowledge to various phenomena under study. Requires the ability to apply the theory, concepts and principles in the field of study or discipline
- Primary responsibilities include data analysis, drafting and preparing manuscripts with the PI and presentation of data at national and international scientific meetings.
- Demonstrated outstanding performance throughout their previous studies with their own publications.
- Highly motivated and exceptionally organized team player with good communication skills.
- Strong language and writing skills.

Physical Demands

Salary Range

\$50,000
