<b>Job Description</b>	

A Master's degree (NQF level 9) in Mathematics or Applied Mathematics with at least four (4) years of lecturing at tertiary education and/or industrial experience and/ or an equivalent combination of relevant professional experience. Competence to teach at least three of the following courses: Calculus, Linear Algebra, Real Analysis, Mathematical Structures, Mathematical Programming and a range of Engineering Mathematics courses. Competence to establish professional networks and maintain links with the industry, as well as experience in developing undergraduate programmes. Excellent English communication skills (oral and written). Competence in developing and managing research projects, sourcing of funding and strong managerial/organisational skills. A credible record of lecturing, peer-reviewed publications, community engagement, programme coordination, and supervision of students (research) at undergraduate level and a relevant Doctorate will be an advantage.
