<b>Job Description</b>	

We are inviting applications for an Associate Research Scientist position in energy storage, emphasizing advanced lithium metal battery technology. The project aims to develop high-performance electrolytes and anodes for lithium metal batteries. The successful candidate will work in a multidisciplinary team of senior and junior scientists in materials science.

The position is available immediately and will remain open until it is filled. Applicants should send a CV and a list of reference, and a cover letter summarizing the candidate's past experiences and future goals. Applications should be submitted through the Academic Search and Recruiting (ASR) system on the Columbia University portal.
