### Position Summary

Prof. Bing Gong in the Department of Chemistry seeks a highly motivated Postdoctoral Associate in Organic Chemistry to join our research team ([Gong, Bing - Department of Chemistry - University at Buffalo](#)). The successful candidate will have a Ph.D. in Chemistry with a specialization in organic synthesis and a track record of research in the field. The postdoctoral associate will be responsible for developing and conducting research projects in organic synthesis, with an emphasis on the design and synthesis of new molecules for biological and medicinal applications.

Duties may include, but are not limited to:

- organize and implement research plans
- develop methods or research that incorporate highly specialized training in a specific specialty
- conduct tests procedures and engage in data collection
- analyze, evaluate, and present findings in professional journals and at professional conferences and meetings

### Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy mix of work, personal and academic pursuit - all in an effort to support your work-life effectiveness. Visit our benefits website to learn about our [benefit packages](#).

### About The University at Buffalo

The University at Buffalo (UB) #ubuffalo is one of Americas leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact. UB is a premier, research-intensive public university dedicated to academic excellence. Our research, creative activity and people positively impact the world. Like the city we call home, UB is distinguished by a culture of resilient optimism, resourceful thinking and pragmatic dreaming that enables us to reach others every day. Visit our website to learn more about the [University at Buffalo](#).
