Type of Recruitment

General Public

Minimum required education and/or special licenses, registrations, trainings, or certifications

An M.S. in chemistry, biochemistry, forensic chemistry, or closely related field from an accredited institution.

Minimum required level and type of experience, knowledge, skills, and abilities

1. Demonstrated ability to teach chemistry lecture and/or lab courses at the undergraduate level.
2. The selected candidates will be expected to teach general chemistry lecture courses, as well as courses within their discipline.
3. Candidates should also be able to maintain, develop, and coordinate general chemistry labs, as well as lab courses within their discipline, and participate in service and curriculum development.
4. One candidate will also be expected to teach and develop lecture and lab courses, and participate in curriculum development for the Forensic Chemistry degree.

Preferred Qualifications

- A Ph.D. in chemistry, biochemistry, forensic chemistry, or closely related field from an accredited institution
- Experience managing large course sections
- Experience teaching and managing courses with formal laboratory components
- Ability to contribute to teaching in support of our new forensic chemistry degree plan
