computational policy exploration and analysis by defined user groups.

- Lead design of a computational architecture to embody multi-level enterprise models, first focused on use experience (UX), then user interface (UI), and then functional requirements
- Lead development and test of multi-level computational enterprise models, including creation of interactive visualizations for large-screen portrayals to support group interactions.
- Participate in empirical evaluation of the usability and usefulness of interactive models for group support and preparation of reports, conference papers, and journal articles reporting design and evaluation of models.

Requirements

- Master's degree in Computer Science, Cognitive Science, or related science/engineering discipline;
 PhD preferred
- Courses in behavioral and social sciences, e.g., human-computer interaction
- Domain knowledge in relevant complex enterprise systems
- Significant relative experience with data analysis, research methods
- Experience applying computer science concepts in problem solving through algorithm development and programming
- Demonstrated ability to work as a member of a team in executing research and/or development projects.
- Excellent interpersonal and communication skills in order to represent the work area and the larger SERC community
- Evidence of high potential for excellence in research and development as demonstrated through academic study or work experience

This is a full-time position available immediately. US Citizens preferred. Interested candidates should submit a CV (including publications), cover letter and at least two (2) references via Workday.

About the AIRC

The Acquisition Innovation and Research Center (AIRC) was recently established to drive a culture of innovation by linking government acquisition teams with faculty research teams to develop, prototype, and test new ideas across the realms of technology, process, policy, contracting, law, and human capital. AIRC is aligned with the SERC, a University-Affiliated Research Center of the US Department
