teach general and organic chemistry courses at undergraduate and graduate levels. The candidate must have a publication track record in top-tier journals. Experience in classroom teaching, securing research grants, and student supervision will be an advantage. Although the position is open to all areas of organic chemistry, preference will be given to candidates with expertise in petrochemical industries or Bioorganic chemistry. The position will remain open until filled.

Job eligibility: The following criteria need to be met before you apply for this job:

- The candidate must have a PhD in the area of Organic Chemistry or a related field from a reputed university

A successful application will include the following five documents

Cover letter stating the faculty position and rank you are applying for, why you are applying for this job, and how you could complement the current Faculty's teaching and research capabilities.

An updated CV.

A Research Statement describing the research program that you will be developing and any special instrumentation that you will require, 1 to 2 pages.

Teaching Statement, which will mention a list of courses that you have taught and your experience with virtual learning & teaching platforms/tools etc. 1 to 2 pages.

The **successful candidate** will enjoy a very competitive tax-free salary package, free accommodation & health insurance, children's education allowance, relocation & furniture allowances, and many more perks.
