Job Description

The Department of Chemistry and Biochemistry at Old Dominion University invites applications for a tenure-track Assistant Professor position in Environmental, Analytical, or Physical Chemistry starting July or December 2023. Preference will be given for candidates whose research focuses on topics of environmental interest. Exceptional candidates will be considered at the Associate Professor level.

Successful candidates are expected to establish a funded and nationally recognized research program. Individuals selected for a position will join a growing department with a record of successful funding (NSF, NIH, USDA) in a new (2021), 110,000 square-foot research and teaching facility. In order to attract the most qualified applicants for this research expansion, generous start-up packages with exceptional assigned research space are being offered.

ODU and the College of Sciences are committed to inclusive excellence, recognizing that diversity enhances and enriches our educational mission, employment experience, and community engagement. We seek candidates whose research, teaching, and service experiences have prepared
