Job Description	

Job Description Summary

The Department of Mathematics and Statistics at Auburn University invites applications for several one- or two-year postdoctoral positions. Each year is considered a 12-month appointment. The two-year appointments would be non-renewable, while the one-year appointments would be renewable once pending need, satisfactory performance, and availability of funding. Each postdoctoral scholar is responsible for teaching 3 courses per year. The desired starting date is August 16, 2022.

We seek applicants whose research interests are compatible with faculty research in the department. In particular, the Department is looking for applicants in the following areas:

- Deep Learning, Scientific Machine Learning, Stochastic Gradient Descent Method, and
