Job Description

The College of Forestry, Wildlife and Environment (CFWE) and the College of Veterinary Medicine (CVM) at Auburn University invite applications for an Assistant/Associate/Full Professor position to expand our research strengths in vertebrate disease ecology. Auburn University is located in one of the most ecologically diverse states in the US and is surrounded by numerous cultural and historic features in nearby Montgomery, Birmingham, and Atlanta. These nearby cities offer an abundance of work and recreational opportunities. In addition, CFWE and CVM maintain strong collaborations with CDC scientists, emphasizing the establishment of formal and long-term research. Information about the two colleges may be found at <https://cfwe.auburn.edu/> and <http://www.vetmed.auburn.edu/>.

This is a 9-month tenure-track position with a 75%/25% research/teaching appointment, and a 75%/25% split appointment between CFWE and CVM. The successful candidate for this joint position will establish a strong and externally funded research program in disease ecology, will contribute to a proposed new interdisciplinary initiative at Auburn University to address environmental resilience and

global health, and foster interdisciplinary and multisectoral collaborations with scientists at Auburn University, as well as other institutions and government agencies. Teaching responsibilities will include both undergraduate and graduate courses, focusing on disease ecology and the candidate's specialty areas. The selected candidate is expected to contribute to the One Health graduate certificate program at Auburn University.

About Auburn: At Auburn, our work changes lives. Ranked by U.S. News and World Report as a premier public institution, Auburn University is dedicated to shaping the future of the people of Alabama, the nation, and the world through forward-thinking education, life-enhancing research, scholarship and selfless service.
