**Job Description**

**Job Description**

The United Arab Emirates University invites applications for a faculty position in Geographic Information Systems (GIS) and Remote Sensing or a closely related field. We seek an interdisciplinary scholar who uses GIS, remote sensing, geospatial analysis and modeling. Qualified candidates at professor level will be considered at a rank commensurate with academic accomplishments. Candidates are expected to have a strong commitment to teaching excellence and student advising at the undergraduate and graduate levels, a demonstrable research capability that will enable the candidate to develop and sustain an internally and/or externally funded research program in his/her area of expertise, publish his/her research findings in top refereed journals, and actively engage in

promoting the growth of the UAE University. The application package should include a cover letter, a curriculum vitae, research and teaching statements, and courses taught. English is the language of instruction and communication. Screening of applications will continue until the position is filled.

### **Minimum Qualification**

Applicants must have an earned doctorate in Geographic Information Systems (GIS) and Remote Sensing from a top-ranking university in North America, Western Europe, Australia or New Zealand. The ability to supervise PhD students and teach graduate and undergraduate courses is a must. Industrial and professional experience is a plus. Applicants with solid research portfolios who published their articles in prominent international journals will be given priority.

### **Preferred Qualification**

Associate or Professor in Geographic Information Systems (GIS) and Remote Sensing with previous experience in supervision of Master and PhD students.
